

## ELDRIDGE/WEST OAKS SUPER NEIGHBORHOOD

February 13, 2014

Council Member Oliver Pennington, District G

### **RE: 2014 Eldridge/West Oaks Super Neighborhood (#17) CIP Priorities**

We, the Eldridge/West Oaks Super Neighborhood Council, submit the following CIP request into public record and present this to you, Council Member Pennington, at the 2014 Capital Improvement Plan Budget Meeting for District G, February 13, 2014. We hope council members will consider this request when assessing funding for future projects.

- **Reconstruction of Eldridge Parkway from Memorial to Alief Clodine (Ref #101001274840)**

We request complete street reconstruction of Eldridge Parkway, including storm sewers, from Memorial to Alief Clodine. Due to the expansion of the Energy Corridor and other developments along this section of Eldridge within the past few years, traffic has greatly increased and sections of this roadway have seriously deteriorated. Although the city has provided concrete panel replacements in some areas, other parts continually develop dangerous potholes and uneven driving conditions (a public safety issue for motorists). Traffic is only going to increase over the next few years and this road will continue to deteriorate.

Please note that we are **NOT** in favor of a widening of Eldridge Parkway south of Memorial.

Thank you for your valuable assistance and for all that you do for District G and our Super Neighborhood.

Sincerely,

Judy Thompson (832-722-4857)  
CIP Committee Chair  
Eldridge/West Oaks Super Neighborhood (#17)
